AMENDED SPECIFICATION PARAGRAPH

The paragraph at Page 3, lines 5 to 10:

Where the device is a foil applied to the surface of a valuable document such as a bank note, the "printed" effects caused by the scattering regions can be made to line up with and complement the printed effects such as guilloche effects on the rest of the valuable document, that is, the printing on the valuable document can be made to match up with and appear to be continuous with regions on the device which have a printed appearance. This gives the device a more integrated appearance with the rest of the document, rather than separate "appended" appearance of a typical OVD.

IN THE CLAIMS:

Please cancel Claims 27 and 29 without prejudice.

Please amend Claims 19, 21, 22, 24, 33 and 34 as follows:
